

please do not allow even more monopolis hungry hedgehogs to own a bigger portion. 1996 was bad enough. radio is now a vast wasteland of repetitive crap. here is a better way to look at this situation. its much like when the highway/freeway system was introduced in the 50s. yes its faster and cheaper but radio today is much like an interstate highway same hotels, same restaurants, same gas stations. but radio of yesterday was like route 66 of the 40s and 50s a great place to go exploring and find interesting stops to visit and maybe stay at for a while and when you got home the trip to you destination was as exciting as your destination. by allowing multiple ownership you are killing creativity period.
